

# How easy is this!

Now we can improve your staff's productivity and enhance the service you provide your customers with RedCat's handheld technology.

It's so easy to use with a large, easy to read and understand graphical display that replicates the terminal screen.

Redcat handheld solutions improve the speed and accuracy that orders reach your kitchen and in addition, they provide your staff with a broad range of information that will enhance the dining experience.

**If you are serious about improving the efficiency and profitability of your business, investigate RedCat's industry leading handheld solutions today.**
